

Annual Report

2019-2020

WIDE ANGLE
Foundation
Let's widen our angle of view.

We envision a poverty-free society where every destitute child, woman, people with disabilities, family and community will get preferential status in access to due health care, education, food, shelter and employment opportunity to live integrated and dignified life.

We explore alternatives and promote a new understanding of socio-economic issues that best serve the interests and aspirations of the people.

Dear Supporters,

WIDE ANGLE Foundation started functioning voluntarily from 2019 when an over-whelming flood submerged the northern part of Bangladesh. WIDE ANGLE is a Non-profit, Voluntary & Charitable Organization.

In the beginning the Foundation we worked only in the area of relief and rehabilitation. But gradually we expanded with working areas and built its reputation as one of the few organizations linking different levels of the society from the highest level of the government to the grass root level.

We always try to identify and reach the poorest of the poor and the most marginalized communities. The project intends to bring about positive changes among the livelihoods of the target population through smoothening of income generating activities and improved access to other basic needs. These areas are completely off grid from conventional electricity supplies and other essential utilities.

WIDE ANGLE committed to provide humanitarian operations by integrating resources for underprivileged people, who are facing hungry, poverty and distress. We strive to provide emergency relief efforts in disasters, and effective programs in places of suffering. We also work on long term relief, education and other development programs.

WIDE ANGLE is established to fulfill our responsibility towards humanity regardless of race, gender, ethnicity, class, location, religion, color, cultural diversity and social background, with a special focus in areas where the majority of the population lives below the poverty line.

WIDE ANGLE works locally with special focus in areas where the majority of the population is living below the poverty line. Our partners range from small community support groups to national alliances and international relief organizations.

With gratitude,

A handwritten signature in black ink, appearing to read 'Md. Humayun Kabir'.

Md. Humayun Kabir,
Executive Director

Our Mission

Our mission is to promote comprehensive community development through community action and participation. We strive to empower underprivileged people to create lasting change in their own lives and communities with inclusion and integration into all aspects of society.
